DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, drawn to a ribbon element for a loudspeaker, classified in class 381, subclass 399.
 - II. Claims 9-10, drawn to a loudspeaker system with a filter circuit, classified in class 381, subclass 111.
 - III. Claim 11, drawn to a loudspeaker module comprising a non-ferromagnetic ribbon, classified in class 381, subclass 152.
2. Inventions group I, group II and group III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions group I is directed to a ribbon element for a loudspeaker, group II is directed to a loudspeaker system with a filter circuit and group III is directed to a loudspeaker module comprising a non-ferromagnetic ribbon.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2643

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
